# The cancer care benefit explained

### What's it all about?

There are an estimated 12.7 million cancer cases around the world every year, with this number expected to increase to 21 million by 2030<sup>1</sup>. With these worrying statistics, it's not surprising that you would want to know up front exactly what your cancer care benefit covers you for. Especially at a time when the last thing you'd want is some hidden surprises.

#### What does UltraCare provide?

Recognising this, all of our UltraCare plans provide cover for all cancer treatment, paid in full up to the overall plan limit, including:

- ✓ Treatment aimed to cure cancer
- ✓ Bone marrow transplants
- ✓ Treatment of a cancer which is diagnosed as a chronic medical condition
- ✓ Palliative treatment and care during the end stages of a cancer

Plus, there's no excess to pay on the cancer care benefit. So all you have to concern yourself with is getting better.

**Note:** The limits are represented in US dollars only. For the euro and pound sterling amounts kindly refer to the UltraCare Table of benefits and for the pound sterling amount only, the UltraCare International Schools Table of benefits at [www.interglobalpmi.com/downloads](http://www.interglobalpmi.com/downloads).

#### What does 'paid in full' up to the overall plan limit mean?

This means that you have the eligible costs of all cancer treatment covered up to the overall plan limit of:

- ✓ \$1 million on UltraCare International Schools Bronze
- ✓ \$1.5 million on UltraCare Standard
- ✓ \$2 million on UltraCare International Schools Silver
- ✓ \$2.5 million on UltraCare Select
- ✓ \$3 million on UltraCare International Schools Gold
- ✓ \$4 million on UltraCare Comprehensive
- ✓ \$5 million on UltraCare Elite

#### What does this improved benefit mean for you?

Being diagnosed with and living with cancer is enough to have to worry about, without the added concern of whether or not your international medical insurance plan will provide adequate cover for the appropriate treatment. Thankfully an UltraCare plan will cover you in full, up to the overall plan limit, for all cancer treatment.

For a full description of cover, please refer to the UltraCare or the UltraCare International Schools Table of benefits available at [www.interglobalpmi.com/downloads](http://www.interglobalpmi.com/downloads).

**All cover is subject to underwriting terms and the terms and conditions of the plan.**
